

MANY GOVERNORS WILL ATTEND NEXT DRY FARMING CONGRESS

Billings, Mont., June 10.—Governor Edwin L. Norris of Montana, president of the Dry Farming Congress has received assurances from a large number of the governors of the western states that they will co-operate with him in making a success of the fourth Dry Farming Congress, which will be held at Billings, Montana, October 26-28, 1909, and the Second International Exposition of Dry Farm Products at the same place, October 25-29. Already ten governors have accepted the Montana executive's invitation to attend the Congress, if possible for them to do so, if not, to send personal representatives.

Among the governors who have shown interest in the work of the Dry Farming Congress and expressed their indorsement of it in letters to Governor Norris are the following:

Governor F. W. Benson, Oregon.—"I desire to give my most hearty indorsement to the Congress and wish to be called upon if I can do anything to promote its success. We have such a large acreage in this western country that never can be utilized under any system of irrigation that it is important that development be made along the lines of Dry Farming. The last session of the legislature in this state made an appropriation for a Dry Farming experiment station in Eastern Oregon, as well as for an irrigating farming experiment station. The United States government and the state of Oregon, acting through its Agricultural College, are co-operating for the success of both these enterprises.

"I shall do everything I can to work up an interest here in our state and shall be glad to appoint a large delegation of representative citizens to attend the Congress at Billings."

Governor John F. Shafroth, Colorado.—"I appreciate the importance of the Dry Farming Congress and hope the next session thereof will be a great success. I attended the last session which was held at Cheyenne in February, and believe the deliberations of that body have been and will be of great moment to the people of the arid west."

Governor Bryant B. Brooks, Wyoming.—"I believe the work of our Dry Farming Congress has had a far-reaching influence in developing western lands and that the future is bright with promise in possibilities of development along this line."

"We will take pleasure in advertising the Montana meeting widely throughout this state and I believe you can rely upon having a strong delegation from Wyoming at your convention. I will take pleasure in discussing dry farming conditions in Wyoming and believe that Dr. Cooke, Prof. Buffum and others from this state can add interest to the occasion by suitable addresses."

Governor M. E. May, Washington.—"I have resided in the dry farming sections of Washington for twenty years and have some idea of what dry farming is. You may rest assured I shall do what I can to make your congress a success, whether I am able to be with you or not, as I feel that you are enlisted in a worthy cause."

Governor William Spry, Utah.—"I am in hearty sympathy with the work of the Dry Farming Congress and shall be most pleased to co-operate with you in any way possible to make the coming Congress a success. I therefore ask that you feel free to command my services along any line that will work this end."

Governor R. S. Vessey, South Dakota.—"I agree with you that scientific agriculture and the conservation of moisture means a great deal to the

entire northwest, especially to the western part of our state. Anything I can do to help this movement along will be cheerfully done."

Governor J. H. Brady, Idaho.—"Idaho and her citizens are very much interested in the subject of dry farming. In the extreme northern and southern portions of our state there are large bodies of land susceptible to farming without irrigation, and it is a subject of no small importance to us. I assure you that I shall do all in my power to see that a representative delegation of Idaho citizens takes part in the deliberations of the Congress and if it is at all possible, I shall be present in person. I feel that the management of the Congress is in good hands and that everything will be done which should be done to make the Congress a success."

Governor John A. Johnson, Minnesota.—"The organization of which you are president is engaged in essentially a practical work."

Governor A. C. Shallenberger, Nebraska.—"I trust that I may be able to attend in person, the Dry Farming Congress at Billings, and if not, I hope to be able to send some fitting representatives of our state. We certainly are much interested in the movement."

Governor John Burke, North Dakota.—"Unless some state matters prevent my attendance, I shall be very pleased to accept your kind invitation."

In addition to the above mentioned governors the executives of both New Mexico and Arizona will attend the Congress, heading large delegations from both territories.

HERE IS RELIEF FOR WOMEN.

If you have pains in the back, urinary, bladder or kidney trouble and want a certain, pleasant herb relief from women's ills, try Mother Gray's "Australian-Leaf." It is a safe, reliable regulator, and relieves all female weaknesses, including inflammation and ulceration. Mother Gray's Australian-Leaf is sold by druggists or sent by mail for 50c. Sample sent free. Address, The Mother Gray Co., Le Roy, N. Y.

Don't expect the unexpected to happen too often.

Women Who Are Envious.

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney troubles show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at all druggists.

SANITARY ORDINANCE SHOULD BE AMENDED

The Optic for the benefit of citizens herewith publishes and digests those sections of ordinance No. 280, passed by the council on March 29, 1905, relative to sanitary carts, removal of refuse, etc., from public and private premises.

Under the section devoted to contractors of sanitary carts and fixing the charge for their services, the maximum price allowed is as follows:

Two dollars and fifty cents for cleaning out thoroughly each grease trap; 20 cents each for each cubic foot of night soil or other solid matter, nor more than \$4 for opening and cleaning the bottom and sides of each cess pool, including disinfecting and putting the same in good condition; said prices in all cases to be subject to control of said city council. No contents of night soil, grease traps or cess pools shall be buried in or upon any premises within the city limits. All privy vaults shall be cleaned once a year or oftener if ordered so to do. All cess pools shall be cleaned when the contents are up to the inlet.

The way to ascertain the expense in cleaning out vaults is to multiply the length in feet and the width in feet together, then that amount by the depth in feet and the result gives the cubic feet. It will be seen by this rule that with the \$4 added to above expense it is too great for services rendered. A reduction should be made by the council for times have changed in "expense accounts" the world over the last few years. This could very easily be done by amending said ordinance.

WANTS

Proprietor — What has become of the "Post No Bills" sign that was on our fence? Janitor—Someone tore it off and stuck it up over the mail box, sir.—Boston Transcript

Joan—I am awful frightened at the lightning. I wish there was a man here. Mistress—What good would that do? Joan—He'd tell me not to be such a fool.—Punch

"Has he proposed yet?" "Not in so many words." "That's no answer. Proposals never do come in words—they consist of sighs, 'hems' haws and gurgles."—Cleveland Leader

The Lawyer—Madam, what is your age? The Opposition (interrupting)—Your Honor, I submit that my honorable opponent is inclining the witness to perjury!—Cleveland Leader

"I understand you spent a quiet evening with your wife last night." "No-o, a man might spend a quiet evening with a phonograph or a mechanical piano, but hardly with his wife."—Houston Post

"Why do women wear such large hats?" "It is necessary. If fashion says that hats must be large, then hats must be large." "Suppose that fashion should decree that shoes must be large?"—Kansas City Journal

"Come over and see me." "Sorry, old man, but I have an engagement with my tailor in twenty minutes." "Gee! but you're getting swell! Couldn't you break such an important date eh?" "No, the date is in the court room."—Cleveland Leader

"And how is that pretty young widow?" asked Mrs. Brown. "Is she reconciled to her loss yet?" "No," replied Mrs. Malaprop, "she ain't exactly reconciled yet, but they do say she has the man picked out."—Catholic Standard and Times

"What sort of people live in the Balkans?" asked the girl who seeks information. "I don't know," answered Miss Cayenne. "Judging from the frequency with which they schedule fights that do not happen, I should think they might be professional pugilists."—Washington Star

Hannibal the illustrious general, driven to despair by his enemies, had taken poison and laid himself down to die. "Anyhow," he said, "my name will have lived in history." His forethought was unerring. Two thousand years later a town in Missouri was named in his honor. — Chicago Tribune

Hoarseness, bronchitis and other throat troubles are quickly cured by Foley's Honey and Tar as it soothes and heals the inflamed throat and bronchial tubes and the most obstinate cough disappears. Insist upon having the genuine Foley's Honey and Tar. O. G. Schaefer and Red Cross Drug Co.

A talkative man seldom selects his wife for his audience.

All the Gold IN GEORGIA Could not Buy

Reading, Ga. August 27, 1906.
Messrs. E. G. DeWitt & Co.,
Chicago, Ill.

Gentlemen:—In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the Lungs, others said consumption of the Bowels. One physician said I would not live until Spring, and in the Spring of 1902 I picked up one of your Almanacs as a prize awarded by the Georgia State Fair. I bought a fifty cent bottle of KODOL DYSPEPSIA CURE and the bottle I received from that bottle ALL THE GOLD IN GEORGIA COULD NOT BUY. I kept on taking it and in two months I was back to my work, as a machinist, and in three months I was well and happy. I still use it occasionally as I find it a fine blood purifier and a good tonic.

May you live long and prosper.
Yours very truly,
G. N. CORNELL
